2019 Continuing Education Schedule

March
16 – Coronal Polishing and Pit/Fissure Sealants – Alton, IL
16 – Administration and Monitoring of Nitrous Oxide – Alton, IL
16 – Basic Intraoral Radiographic Techniques – Alton, IL
20 – Administration and Monitoring of Nitrous Oxide – Chicago, IL

April
10 & 11 – Anesthesia/Sedation Assistant Monitoring – Chicago, IL
13 – Coronal Polishing and Pit/Fissure Sealants – Chicago, IL

May
8 – Administration and Monitoring of Nitrous Oxide – Chicago, IL

September
14 – Coronal Polishing and Application of Pit/Fissure Sealants – Chicago, IL
25-26 – Local Anesthesia Course (Part 1) – Chicago, IL

October
2 – Administration and Monitoring of Nitrous Oxide – Chicago, IL
2-3 – Local Anesthesia Course (Part 2) – Chicago, IL
9 & 10 – Anesthesia/Sedation Assistant Monitoring – Chicago, IL

November
8 & 9 – Anesthesia/Sedation Assistant Monitoring – Alton, IL
9 – Coronal Polishing and Pit/Fissure Sealants – Alton, IL
9 – Administration and Monitoring of Nitrous Oxide – Alton, IL
9 – Basic Intraoral Radiographic Techniques – Alton, IL
13 – Administration and Monitoring of Nitrous Oxide – Chicago, IL
23 – Coronal Polishing and Pit/Fissure Sealants – Chicago, IL

Courses are held throughout Illinois.

ISDS Member Hygienists!

Basic Intraoral Radiographic Techniques
Clinical Certification Course for Dental Auxiliary
Target Audience: Dental Assistants

March 16 – SIU School of Dental Medicine, Alton, IL
November 9 – SIU School of Dental Medicine Alton, IL

Enrollment: Maximum of 15 (Dental Assistants)
Class size is limited and registration will be taken on first-come, first-served basis.

$295 – Member dentist staff
$525 – Non-member dentist staff

All courses are 8:00 am to 5:00 pm.
The registration fee includes course materials, supplies, continental breakfast and lunch.

Instructor: Dr. Dixon

This course is designed for dental auxiliaries who wish to refine their fundamental radiographic skills, whether for a film-based or digital system on both adult and pediatric patients. The course consists of 1-2 hours lecture, followed by hands-on clinical participation on radiographic mannequins for the remainder of the course. The SIU-SDM radiology department has seven operatories and is equipped with intraoral film and digital sensors, and digital capture for panoramic and lateral cephalometric images.

Topics to Be Discussed:
- Review and Mastery of Radiographic Hygiene
- Review of Radiographic Selection Criteria
- Review and Mastery of the Paralleling and Bisected Angle Techniques
- Review and Mastery of Panoramic and Lateral Cephalometric Techniques
- Mastery of the use of various film/sensor holders, including the XCP® system and Snap-A-Ray®
- Ability to modify the intraoral technique for specific situations, such as narrow palate and small mouth
- Ability to acquire radiographic images for localization purposes, such as endodontic files
- Ability to critically evaluate intraoral and extraoral images

NOTE!
For All Dental Auxiliary Training Courses:
Class size is limited and registration will be taken on first-come, first-served basis.
Coronal Polishing & Pit/Fissure Sealants
Clinical Certification Course for Dental Auxiliary
Target Audience: Dental Assistants

March 16 – SIU School of Dental Medicine, Alton, IL
April 13 – UIC College of Dentistry, Chicago, IL
September 14 – UIC College of Dentistry, Chicago, IL
November 9 – SIU School of Dental Medicine, Alton, IL
November 23 – UIC College of Dentistry, Chicago, IL

All courses are 8:00 am to 6:00 pm.
Continental breakfast and lunch are provided.

Fees:
$495 ISDS Member dentist staff
$850 Non-member dentist staff

Instructors: Dr. Dickey, Dr. Schwenk, Barbara Davis, RDH,
Dr. Caraba, Dr. Demski, and Jennifer Bereckis, RDH

This course will provide dental assistants with the proper educational requirements as stated in Illinois law for application of pit and fissure sealants and coronal polishing which includes didactic study in anatomy, physiology, pharmacology, and dental emergencies followed by a written exam. This course will also include two hours of clinical experience on pit and fissure sealants and two hours on coronal polishing. The clinical instruction on coronal polishing will include work performed on a human subject.

Each participant must agree to act as a patient for coronal polishing. In addition, each participant must follow the OSHA guidelines for infection control and use of clinical Personal Protective Equipment (i.e., gloves, mask, eyewear and clinic gown).

At completion of this course and prior to being permitted to perform these expanded functions in Illinois, the dental assistant must meet the following requirements:

- Dental assistant is 18 years of age and has been working as a dental assistant for at least 1,000 hours.
- The supervising dentist must personally observe the successful placement of six sealants on a patient(s) by the dental assistant.
- Successful participant will receive a certificate of completion.
Local Anesthesia
Clinical Certification Course for Dental Auxiliary
Target Audience: Dental Hygienists

September 25-26 & October 2-3
UIC College of Dentistry, Chicago

8:30 am to 5:00 pm.

Fees:
$1,045 ISDS Member Dentist Staff, or ISDS Hygiene Member
$1,100 Non-member

Fees are payable in full two weeks prior to course date and include continental breakfast, lunch and course handouts. *(The Malamed text is not included in the fee and must be independently purchased.)*

This four-day course will satisfy the State of Illinois expanded function training requirements to allow registered dental hygienists to administer local anesthesia under the general supervision of a licensed dentist.

ISDS member dental hygienists can use their $25 CE voucher for this course.

Instructors: Dr. Flick, Dr. Miloro and Dr. Skiba

Course content provides a review of necessary knowledge on the uses and potential complications of administering local anesthesia. A pre-course reading assignment from Dr. Stanley F. Malamed’s Handbook of Local Anesthesia (5th or 6th edition) assures a foundation of understanding that is reinforced by lectures. Topics include the local anesthesia armamentarium, neuroanatomy and neurophysiology, pharmacology of vasoconstrictors, mandibular and maxillary anatomy, the trigeminal nerve, possible complications, post-treatment instructions, and accurate record keeping.

- Lab practice sessions emphasize grasp and technique and use sensor-active Frasaco/Practicon manikins and other injection placement exercises.
- Injection instruction occurs in clinic and involves supervised administration of maxillary, mandibular and block injections using xylocaine 2%, mepivicaine 3%, and topical benzocaine.
- In clinic, participants must agree to receive, as well as administer, injections in the clinic. Hygienists who are in the first trimester of pregnancy or at medical risk for any other reason should seek the consent of their primary physician before registering.
- Course size is limited to 24 persons per session. While a test of basic knowledge based on pre-course reading is given on the first course day, successful course completion is based solely on competency demonstrated in the clinic.
April 10 & 11 – UIC College of Dentistry, Chicago, IL
October 9 & 10 – UIC College of Dentistry, Chicago, IL
November 8 & 9 – SIU School of Dental Medicine, Alton, IL

Course time will be announced on confirmation.
Continental breakfast and lunch are provided.

Prerequisite: Must be currently certified in BLS for healthcare providers or its equivalent. A copy of your current BLS card must accompany registration form. The Illinois State Dental Society is an approved provider of continuing education in the State of Illinois. Illinois dental hygienists will earn 12 continuing education credits when completing this course.

Fees:
$550 ISDS Member dentist staff
$875 Non-member dentist staff

Instructors: Dr. Flick, Dr. Milano, Dr. Rawson and Dr. Misischia
This course is offered as a continuing education experience for dental auxiliary who work in dental or oral surgery offices in the State of Illinois where sedation or general anesthesia is administered. The course is designed to meet the requirements of the Illinois Dental Practice Act and the Rules Administering the Dental Practice Act. This course includes both lecture and clinical exposure which is completed at one of the two dental schools in Illinois. A certificate of completion will be issued upon course completion.

Course Objectives and Competencies:
• Become familiar with the anatomy and physiology involved with monitoring and airway maintenance in the sedated dental patient.
• Obtain a basic understanding of the physiology of the respiratory, cardiovascular and neurological systems as they relate to anesthesia and sedation.
• Become familiar with the health questionnaire and its application for the evaluation of the patient undergoing anesthesia/sedation and be able to link this information to the ASA classification.
• Develop an understanding of the levels of sedation/anesthesia and be able to recognize these levels in the patient under dental sedation.
• Acquire the skills required for monitoring the sedated patient, including monitoring of blood pressure, pulse, respirations temperature and level of consciousness.
• Learn to operate automated monitoring devices including the EKG and pulse-oximeter.
• Learn to complete the anesthesia record and make appropriate monitoring entries during the procedure and during recovery.
• Learn basic management protocols for anesthesia related emergencies and become more competent in assisting the dentist in their management.
March 16 – SIU School of Dental Medicine, Alton, IL
March 20 – UIC College of Dentistry, Chicago, IL
May 8 – UIC College of Dentistry, Chicago, IL
October 2 – UIC College of Dentistry, Chicago, IL
November 9 – SIU School of Dental Medicine, Alton, IL
November 13 – UIC College of Dentistry, Chicago, IL

Course time will be announced on confirmation.
Continental breakfast and lunch are provided.

6 hour course

Prerequisite: Must be currently certified in BLS for healthcare providers or its equivalent. A copy of your current BLS card must accompany registration form. The Illinois State Dental Society is an approved provider of continuing education in the State of Illinois.

Fees:
$295 ISDS Member dentist staff
$525 Non-member dentist staff

Instructors: Dr. Kratunova and Dr. Goebel

This course for monitoring and administration of nitrous oxide by the allied dental personnel is designed to meet the certification requirements of the State of Illinois for expanded functions. This course will include both didactic and clinical components in the monitoring and administration of nitrous oxide and advanced airway management. It will provide instruction in anatomy, physiology, pharmacology, and dental emergencies, as they relate to the use of nitrous oxide in the dental office. This course is open to all qualified dental assistants for monitoring and dental hygienists for administering. After successful completion of this course the dental assistant can return to the private office and provide expanded function for the dental team and the monitoring of nitrous oxide, while the dental hygienists will be able to start and stop the flow of gas.
Dates, times and costs to be announced.

Continental breakfast and lunch are provided.

16 hour course – 8 hour self study and 8 hour clinic

**Prerequisite:** Must be currently certified in BLS for healthcare providers or its equivalent. A copy of your current BLS card must accompany registration form. The Illinois State Dental Society is an approved provider of continuing education in the State of Illinois.

**Instructors:** Dr. Dickey, Dr. Rawson and Barb Davis, RDH

A dental assistant who has at least 2,000 hours of direct clinical patient care experience and who has successfully completed an approved coronal polishing certification course is eligible to attend the coronal scaling course.

The dental assistant is limited to the use of hand instruments, and the coronal scaling shall only be utilized on patients who are eligible for Medicaid or who are uninsured and whose household income is not greater than 200% of the federal poverty level. The coronal scaling is limited to above the gum line, supragingivally, on the clinical crown of the tooth of a patient 12 years of age or younger, who have an absence of periodontal disease and who are not medically compromised or individuals with special needs.

This course includes 16 hours of instruction in both didactic and clinical manikin instruction in the areas of study in dental anatomy, public health dentistry, medical history, dental emergencies, and managing the pediatric patient.

After successfully completion of the course, the supervising dentist must observe and approve the completion of six full mouth supragingival scaling procedures.
Ready to register for a class?

The quickest and easiest way is to register online at www.isds.org. Click on “Meetings & Events> Continuing Education”, then follow the links.

If you have any questions, call 800/475-4737.

ISDS reserves the right to cancel a course. In the case of course cancellation, your fee will be fully refunded or transferred to the next course date. Individual cancellations received at least 15 days prior to the course will receive a full refund. After this period, only an 85% refund will be given. Cancellations must be made prior to the day of the course to receive the 85% refund. No refunds will be granted for no-shows. A course credit will be given due to illness and weather conditions.

Dr. Keith Dickey
Dr. Dickey graduated from Indiana University School of Dentistry, and established a general dental practice for six years in his home-town of South Bend before accepting a full-time appointment at Illinois Central College in Peoria; where he began his academic career in dental education. After teaching at SIU School of Dental Medicine for thirty-five years, he is currently Director for Continuing Education and Alumni Services as well as an emeritus associate professor at SIU-SDM. Serving over twenty years as a member of the ISDS Foundation Board of Directors, Dr. Dickey is the first ISDS member who has served as both the President of ISDS and the ISDS Foundation. In 2015, he retired from his private practice of general dentistry in East Alton, IL.

Dr. Debra Schwenk
Dr. Schwenk is currently the Compliance Officer at SIU School of Dental Medicine, her alma mater, where she has taught full-time for 15 years and part-time for ten years. Previously, she was the Assistant Dean of Clinical Affairs, Interim Department Chair of Growth, Development and Structure and coordinated the school’s community outreach activities, which included teaching preventive procedures such as sealants and coronal polishing to dental students. Previous to her full-time teaching commitment, she owned a general practice in Alton. She received a Master's in Public Administration from SIUE in 2003. Dr. Schwenk has served as a trustee for ISDS and as a member of the Dental Education Committee. She is currently a board examiner for the Central Regional Dental Testing agency.

Barbara Davis, RDH
Ms. Davis is a part-time clinical instructor at Lewis and Clark Community College dental hygiene program and retired as a dental hygienist at SIU School of Dental Medicine after 25 years of service.

Dr. Brian Caraba
Dr. Caraba is a graduate of University of Illinois College of Dentistry and has been a general dentist in private practice since 1995. He has been involved with ISDS Auxiliary training since 2007. Dr. Caraba is committed to excellence in Dentistry and continues to educate himself through many advanced courses including oral surgery, esthetic dentistry, prosthodontics, orthodontics, and implantology. He enjoys practicing dentistry and is enthusiastic with educating his staff, patients, and the dental community.

Dr. Marta Demski
Dr. Demski is a graduate of the University of Illinois at Chicago College of Dentistry. She is a general dentist currently practicing in her hometown of Park Ridge, IL. Dr. Demski is an active member of the American Dental Association, Illinois State Dental Society, Chicago Dental Society, Dental Arts Club, and Windy City Seminars branch of the Seattle Study Club. Dr. Demski has served as an instructor for the ISDS Expanded Duties Dental Course on Coronal Polishing and Application of Pit and Fissure Sealants since graduation.

Jennifer Bereckis, RDH
Ms. Bereckis is a Clinical Assistant Professor and the Executive Director of Clinical Operations at the University of Illinois College of Dentistry. She is responsible for yearly HIPAA, OSHA and Infection Control training for the entire College. In her faculty role, she is the Component Director for a Practice Management course taught in the DMD Curriculum. Ms. Bereckis serves on the University's Infection Control Committee, Needle Stick Committee and the University Senate. Ms. Bereckis is also chair of the Illinois State Dental Society Committee on Dental Education and a Consultant Board Examiner for the Commission on Dental Competency Assessments, formally known as North East Regional board.

Basic Intraoral Radiographic Techniques

Dr. Debra Dixon
Dr. Dixon, Associate Professor, is Section Head of Diagnostic Sciences in the Department of Applied Dental Medicine at Southern Illinois School of Dental Medicine. Also, as Section Head of Radiology, she is in charge of all Radiology didactic classes and clinical instruction. Dr. Dixon received her DMD degree from SIU-SDM, and an MSc in Dental Radiology from the University of London.

Coronal Scaling

Dr. Keith Dickey
Dr. Kenneth Rawson
Ms. Barb Davis, RDH
Local Anesthesia

Dr. William G. Flick

Dr. Flick has been on the teaching faculty of the UIC College of Dentistry since 1993, and has held prior teaching appointments at Loyola University, Cook County Hospital, and with the U.S. Air Force. Dr. Flick maintained a private practice in Chicago through 2013. He is currently full-time clinical professor at UIC. After receiving his BS and DDS degrees from the U of I at Chicago, and completing a residency in Oral and Maxillofacial Surgery at Cook County Hospital, Dr. Flick earned a Master of Public Health (MPH) degree from the UIC School of Public Health.

Dr. Michael Miloro

Dr. Miloro received his DMD degree from Tufts University, and obtained his MD degree, General Surgery and Oral and Maxillofacial Surgery certificates from the University of Pennsylvania. He served on the Oral and Maxillofacial Surgery faculty of Ohio State University, and was Program Director at the University of Maryland at Baltimore, and Section Chief and Program Director of Oral and Maxillofacial Surgery at the University of Nebraska Medical Center. Dr. Miloro is a Faculty Fellow of the American Association of Oral and Maxillofacial Surgeons, Diplomate of the American Board of Oral and Maxillofacial Surgery, and a Fellow of the American College of Surgeons. He has over 100 peer-reviewed publications, and serves as Section Editor of the Journal of Oral and Maxillofacial Surgery. Dr. Miloro is currently the Program Director of Oral and Maxillofacial Surgery at U of I Chicago College of Dentistry.

Dr. Thomas Skiba

Dr. Skiba earned his dental degree from the U of I at Chicago. Following service with the US Army in Vietnam, he returned and completed a residency in Oral & Maxillofacial Surgery at UIC and earned a MS degree in OMS. He enjoyed private practice in Crystal Lake, Illinois and Lake Geneva, Wisconsin following residency for 32 years. Dr. Skiba joined the faculty of the UIC College of Dentistry in 2009. He taught both undergraduates and OMS residents. He was course director of Dental Medicine and Dental Hygiene Pharmacology. He was also the Director of the Undergraduate Oral Surgery Clinic. Dr. Skiba continues as a UIC faculty teaching appointment.

Nitrous Oxide Monitoring and Administration

Dr. Evelina Kratunova

Dr. Kratunova joined UIC in August 2015 and is a full-time faculty Clinical Assistant Professor in Pediatric Dentistry. Dr. Kratunova has a clinical doctorate in Pediatric Dentistry from Trinity College Dublin, Ireland, and a specialist fellowship degree in Pediatric Dentistry from the Faculty of Dentistry of the Royal College of Surgeons in Ireland. Dr. Kratunova has also served as Secretary and President of the Irish Society for Dentistry for Children. She is an active member of the American Academy of Pediatric Dentistry and the ISDS.

Dr. William Goebel

Dr. Goebel is a professor emeritus and former head of the section of Diagnostic Sciences at SIU School of Dental Medicine. He holds staff positions at two hospitals and conducts a private practice in addition to teaching in the areas of Diagnosis, Medicine, Pharmacology, Therapeutics and Anxiolysis. He has published numerous articles in peer-reviewed journals, contributed chapters in several books and has been invited to lecture at meetings throughout the United States. He received his DDS and MSD degrees in Oral Diagnosis and Oral Medicine from Indiana University School of Dentistry.

Anesthesia/Sedation

Dr. William G. Flick

Dr. Michael Miloro

Dr. Evelina Kratunova

Dr. Kenneth G. Rawson

Dr. Rawson graduated from SIU School of Dental Medicine in 2005 and received his certificate in Pediatric Dentistry from the University of Nevada School of Medicine in 2007. He is a diplomate of the American Board of Pediatric Dentistry, maintains a private pediatric dental practice and is an Associate Professor in the Section of Pediatric Dentistry at Southern Illinois School of Dental Medicine.

Dr. Art J. Misischia

Dr. Misischia is Section Head and Clinical Associate Professor, Oral and Maxillofacial Surgery, at SIU School of Dental Medicine. He also serves as Adjunct Associate Professor, St. Louis University, Department of Endodontics/Periodontics. Dr. Misischia is a diplomate of both the American Board of Oral and Maxillofacial Surgeons and the National Dental Board of Anesthesiology.
