Coronal Scaling

Clinical Certification Course for Dental Auxiliary–Target Audience: Dental Assistants

Date, times and costs to be announced.

Continental breakfast and lunch are provided.
16 hour course – 8 hour self study and 8 hour clinic

A dental assistant who has at least 2,000 hours of direct clinical patient care experience and who has successfully completed an approved coronal polishing certification course is eligible to attend the coronal scaling course.

The dental assistant is limited to the use of hand instruments, and the coronal scaling shall only be utilized on patients who are eligible for Medicaid or who are uninsured and whose household income is not greater than 200% of the federal poverty level. The coronal scaling is limited to above the gum line, supragingivally, on the clinical crown of the tooth of a patient 12 years of age or younger, who have an absence of periodontal disease and who are not medically compromised or individuals with special needs.

This course includes 16 hours of instruction in both didactic and clinical manikin instruction in the areas of study in dental anatomy, public health dentistry, medical history, dental emergencies, and managing the pediatric patient.

After successfully completion of the course, the supervising dentist must observe and approve the completion of six full mouth supragingival scaling procedures.

Instructors:
Dr. Dickey
Dr. Rawson
Barb Davis, RDH

OSHA/Infection Control: What's your compliance level?

Target Audience: Dentists, Registered Dental Hygienists, Dental Assistants

Friday, May 11

President Abraham Lincoln Springfield
Doubletree by Hilton
701 E. Adams
Springfield, IL

6 CE Credits

8:00 - 8:30 am Registration
8:30 am - 4:00 pm Course
The registration fee includes course materials, supplies, continental breakfast and lunch.

Fees:

$275 Member Dentist
$150 Auxiliary Staff of Member Dentist
$150 ISDS Hygiene Member
$100 Retired Member Dentist
$500 Non-member Dentist
$250 Non-member Dentist Staff

***Special Group Pricing!* $75 per person for auxiliary staff attending with paid dentist registrant.**
No limit or number of auxiliary staff from same office.

Course Synopsis: This 6-hour course is designed for dental assistants, hygienists and dentists as a review of Infection Control and OSHA standards. This course shows ways to reduce the risk of acquiring bloodborne disease through best work practices, adherence to standard precautions, proper disinfection and sterilization techniques. This course also explains the two OSHA standards that primarily affect dentistry, the Bloodborne Pathogens Standard and Hazard Communication Standards. At the end of this course, each participant will receive a completion certificate that will satisfy yearly OSHA training for your office.

Course Objectives:
Upon completion you will be able to:

- ✓ Identify potential hazards in the Oral Health Care setting.
- ✓ Differentiate between Administrative, Engineering and Work Practice Controls.
- ✓ Be able to compare and contrast the benefits and limitations of different personal protective equipment.
- ✓ Understand the different modes of asepsis and instrument sterilization.
- ✓ Understand the different regulatory agencies in dentistry and how to remain compliant.

Co-Sponsored by:

GV BLACK district dental society

Instructors: Jennifer L. Bereckis, RDH and Debra Schwenk, DMD

Basic Intraoral Radiographic Techniques

Clinical Certification Course for Dental Auxiliary–Target Audience: Dental Assistants

March 24 – SIU School of Dental Medicine, Alton, IL

October 27 – SIU School of Dental Medicine Alton, IL

Enrollment: Maximum of 15 (Dental Assistants)
Class size is limited and registration will be taken on first-come, first-served basis.

$290 – Member dentist staff
$525 – Non-member dentist staff

All courses are 8:00 am to 5:00 pm.
The registration fee includes course materials, supplies, continental breakfast and lunch.

This course is designed for dental auxiliaries who wish to refine their fundamental radiographic skills, whether for a film-based or digital system on both adult and pediatric patients. The course consists of 1-2 hours lecture, followed by hands-on clinical participation on radiographic mannequins for the remainder of the course. The SIU-SDM radiology department has seven operatories and is equipped with intraoral film and digital sensors, and digital capture for panoramic and lateral cephalometric images.

Topics to Be Discussed:

- Review and Mastery of Radiographic Hygiene
- Review of Radiographic Selection Criteria
- Review and Mastery of the Paralleling and Bisected Angle Techniques
- Review and Mastery of Panoramic and Lateral Cephalometric Techniques
- Mastery of the use of various film/sensor holders, including the XCP® system and Snap-A-Ray®
- Ability to modify the intraoral technique for specific situations, such as narrow palate and small mouth
- Ability to acquire radiographic images for localization purposes, such as endodontic files
- Ability to critically evaluate intraoral and extraoral images

Instructor: Dr. Dixon

Coronal Polishing & Pit/Fissure Sealants

Clinical Certification Course for Dental Auxiliary–Target Audience: Dental Assistants

March 24 – SIU School of Dental Medicine, Alton, IL

April 14 – UIC College of Dentistry, Chicago, IL

September 15 – UIC College of Dentistry, Chicago, IL

October 27 – SIU School of Dental Medicine, Alton, IL

November 10 – UIC College of Dentistry, Chicago, IL

All courses are 8:00 am to 6:00 pm.
Continental breakfast and lunch are provided.

This course will provide dental assistants with the proper educational requirements as stated in Illinois law for application of pit and fissure sealants and coronal polishing which includes didactic study in anatomy, physiology, pharmacology, and dental emergencies followed by a written exam. This course will also include two hours of clinical experience on pit and fissure sealants and two hours on coronal polishing. The clinical instruction on coronal polishing will include work performed on a human subject.

Each participant must agree to act as a patient for coronal polishing. In addition, each participant must follow the OSHA guidelines for infection control and use of clinical Personal Protective Equipment (i.e., gloves, mask, eyewear and clinic gown).

At completion of this course and prior to being permitted to perform these expanded functions in Illinois, the dental assistant must meet the following requirements:

- Dental assistant is 18 years of age and has been working as a dental assistant for at least 1,000 hours.
- The supervising dentist must personally observe the successful placement of six sealants on a patient(s) by the dental assistant.
- Successful participant will receive a certificate of completion.

Fees:

$495 ISDS Member dentist staff
$850 Non-member dentist staff

Instructors: Dr. Dickey, Dr. Schwenk, Barbara Davis, RDH, Dr. Caraba, Dr. Demski, and Jennifer Bereckis, RDH

For All Dental Auxiliary Training Courses:
Class size is limited and registration will be taken on first-come, first-served basis.

Local Anesthesia

Clinical Certification Course for Dental Auxiliary–Target Audience: Dental Hygienists

September 19, 20, 26 & 27 – UIC College of Dentistry, Chicago

8:30 am to 5:00 pm.
Continental breakfast and lunch are provided.

This four-day course will satisfy the State of Illinois expanded function training requirements to allow registered dental hygienists to administer local anesthesia under the general supervision of a licensed dentist.

Course content provides a review of necessary knowledge on the uses and potential complications of administering local anesthesia. A pre-course reading assignment from Dr. Stanley F. Malamed's *Handbook of Local Anesthesia* (5th or 6th edition) assures a foundation of understanding that is reinforced by lectures. Topics include the local anesthesia armamentarium, neuroanatomy and neurophysiology, pharmacology of vasoconstrictors, mandibular and maxillary anatomy, the trigeminal nerve, possible complications, post-treatment instructions, and accurate record keeping.

- Lab practice sessions emphasize grasp and technique and use sensor-active Frasaco/Practicon manikins and other injection placement exercises.
- Injection instruction occurs in clinic and involves supervised administration of maxillary, mandibular and block injections using xylocaine 2%, mepivicaine 3%, and topical benzocaine.
- In clinic, participants must agree to receive, as well as administer, injections in the clinic. Hygienists who are in the first trimester of pregnancy or at medical risk for any other reason should seek the consent of their primary physician before registering.
- Course size is limited to 24 persons per session. While a test of basic knowledge based on pre-course reading is given on the first course day, successful course completion is based solely on competency demonstrated in the clinic.

Fees:

$1,045 ISDS Member Dentist Staff, or ISDS Hygiene Member
$1,100 Non-member

Fees are payable in full two weeks prior to course date and include continental breakfast, lunch and course handouts. (The Malamed text is not included in the fee and must be independently purchased.)

ISDS member dental hygienists can use their $25 CE voucher for this course.

Instructors: Dr. Flick, Dr. Miloro, Dr. Skiba

The Illinois State Dental Society is an approved provider of continuing education in the State of Illinois. Illinois dental hygienists will earn 32 continuing education credits when completing this course.

Anesthesia/Sedation Assistant Monitoring

Clinical Certification Course for Dental Auxiliary–Target Audience: Dental Assistants & Dental Hygienists

April 11 & 12 – UIC College of Dentistry, Chicago, IL
October 17 & 18 – UIC College of Dentistry, Chicago, IL
October 26 & 27 – SIU School of Dental Medicine, Alton, IL

Course time will be announced on confirmation.
Continental breakfast and lunch are provided.
12 Hour Course

Fees:

$550 ISDS member dentist staff

$875 Non-member dentist staff

This course is offered as a continuing education experience for dental auxiliary who work in dental or oral surgery offices in the State of Illinois where sedation or general anesthesia is administered. The course is designed to meet the requirements of the Illinois Dental Practice Act and the Rules Administering the Dental Practice Act. This course includes both lecture and clinical exposure which is completed at one of the two dental schools in Illinois. A certificate of completion will be issued upon course completion.

Prerequisite: Must be currently certified in BLS for healthcare providers or its equivalent. A copy of your current BLS card must accompany registration form.

Course Objectives and Competencies:

- Become familiar with the anatomy and physiology involved with monitoring and airway maintenance in the sedated dental patient.
- Obtain a basic understanding of the physiology of the respiratory, cardiovascular and neurological systems as they relate to anesthesia and sedation.
- Become familiar with the health questionnaire and its application for the evaluation of the patient undergoing anesthesia/sedation and be able to link this information to the ASA classification.
- Develop an understanding of the levels of sedation/anesthesia and be able to recognize these levels in the patient under dental sedation.
- Acquire the skills required for monitoring the sedated patient, including monitoring of blood pressure, pulse, respirations temperature and level of consciousness.
- Learn to operate automated monitoring devices including the EKG and pulse-oximeter.
- Learn to complete the anesthesia record and make appropriate monitoring entries during the procedure and during recovery.
- Learn basic management protocols for anesthesia related emergencies and become more competent in assisting the dentist in their management.

Instructors: Dr. Flick, Dr. Milano, Dr. Rawson and Dr. Misischia

The Illinois State Dental Society is an approved provider of continuing education in the State of Illinois. Illinois dental hygienists will earn 12 continuing education credits when completing this course.

Nitrous Oxide Monitoring & Administration

Clinical Certification Course for Dental Auxiliary–Target Audience: Dental Assistants & Dental Hygienists

March 21 – UIC College of Dentistry, Chicago, IL
March 24 – SIU School of Dental Medicine, Alton, IL
May 9 – UIC College of Dentistry, Chicago, IL
October 10 – UIC College of Dentistry, Chicago, IL
October 27 – SIU School of Dental Medicine, Alton, IL
November 14 – UIC College of Dentistry, Chicago, IL

Course time will be announced on confirmation.
Continental breakfast and lunch are provided.
6 hour course

This course for monitoring and administration of nitrous oxide by the allied dental personnel will be designed to meet the certification requirements of the State of Illinois for expanded functions. This course will include both didactic and clinical components in the monitoring and administration of nitrous oxide and advanced airway management. It will provide instruction in anatomy, physiology, pharmacology, and dental emergencies, as they relate to the use of nitrous oxide in the dental office. **This course is open to all qualified dental assistants for monitoring and dental hygienists for administering**. After successful completion of this course the dental assistant can return to the private office and provide expanded function for the dental team and the monitoring of nitrous oxide, while the dental hygienists will be able to start and stop the flow of gas.

Prerequisite: Must be currently certified in BLS for healthcare providers or its equivalent. A copy of your current BLS card must accompany registration form.

Fee:

$295 ISDS Member dentist staff
$525 Non-member dentist staff

Instructors: Dr. Kratunova and Dr. Goebel

The Illinois State Dental Society is an approved provider of continuing education in the State of Illinois. Illinois dental hygienists will earn 6 continuing education credits when completing this course.

2018 is a Licensure Year!

Next License Renewal is September 30, 2018 (October 1, 2015 to September 30, 2018)

During each three-year licensing period, every **dentist** must take **48 hours** of approved continuing education courses (ONLY 1/2 the credits, 24, can be earned for approved self study)

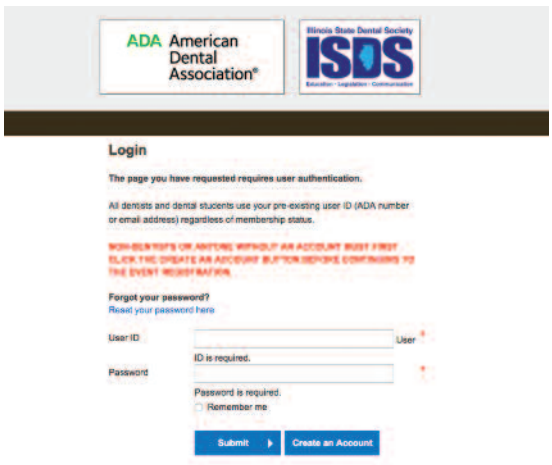
Every **dental hygienist must take 36 hours** of approved continuing education courses (ONLY 18 credits can be earned from approved self study courses).

State of Illinois Department of Financial and Professional Regulations will only accept credits from approved continuing education courses which cover clinical topics, practice management skills, legal and ethical responsibilities and stress management. The Illinois Dental Practice Act states that courses about estate and financial planning, investments or personal health will not be approved for continuing education purposes. It also specifies that "approved courses may include…courses that are offered or sponsored by approved colleges, universities, and hospitals and by recognized national, state and local dental and dental hygiene organizations." Before you take a continuing education course, make sure it's being provided by an approved sponsor and is an approved topic. The Illinois State Dental Society is an approved continuing education sponsor.

New, Easy Instructions to Register Online for ISDS-sponsored Auxiliary Courses!

The Illinois State Dental Society recently upgraded to a brand new website and a new registration system through the American Dental Association's Aptify software. **Dental Assistants and Dental Hygienists** must follow the steps below to complete their online course registrations:

1. Find the course you wish to attend on the master calendar under "Meetings and Events." Click on the class title within the calendar. Then click on the registration link. You will be directed to the following screen:



2. Click the blue "Create an Account" button. Do NOT use your dentist employer's ADA username and password.
3. Complete all fields with a red asterisk (*) in the sections on the next page:
   - **Personal Information**
   - **Web Account Information**

   This is where you will set up your own username and password for the current and future course and event registrations.
   - **Contact Information**

   Please provide your dental office address and phone number.
4. Click "Continue" to complete your profile. Then register for your course! It's that easy!

Join us for 2 great conferences!

Capital Conference

Wednesday, April 18, 2018
Wyndham City Centre
(Formerly Hilton)
700 East Adams Street
Springfield, Illinois 62701

Save the date for the 2018 Capital Conference, Wednesday, April 18, 2018. There will be a legislative briefing, visit to the Capitol, discussion on hot topics in dentistry, and more.

Illinois State Dental Society members will be able to attend Capital Conference at **no charge**. All events during the conference will be complimentary.

154th Annual Session

September 7-8, 2018
Eaglewood Resort
1401 Nordic Road
Itasca, Illinois 60143

Annual Session gives members the opportunity to participate in the decision making process of the House of Delegates, exchange ideas and join colleagues in business and social aspects of the society.

Other dental organizations and specialty groups, including DENT-IL-PAC, Governor's Club, ISDS Foundation, Illinois Academy of General Dentistry and International/American College of Dentistry hold meetings in conjunction with the ISDS Annual Session.

Envisioning the future of oral health

Auxiliary Course Instructors

Coronal Polishing & Pit/Fissure Sealants

Dr. Keith Dickey

Dr. Dickey attended Indiana University School of Dentistry. He is an emeritus associate professor and Director for Continuing Education and Alumni Services at Southern Illinois University School of Dental Medicine. Dr. Dickey is a Past President of the Illinois State Dental Society and the Past President of the ISDS Foundation. He is retired from his private practice of general dentistry in East Alton, IL.

Dr. Debra Schwenk

Dr. Schwenk is currently the Interim Department Chair of Growth, Development and Structure at Southern Illinois University School of Dental Medicine, her alma mater, where she has taught full-time for 15 years and part-time for ten years. Previously, she was the Assistant Dean of Clinical Affairs and coordinated the school's community outreach activities, which included teaching preventive procedures such as sealants and coronal polishing to dental students. Previous to her full-time teaching commitment, she owned a general practice in Alton, Illinois. She received a Master's in Public Administration from SIUE in 2003.

Barbara Davis, RDH

Ms. Barbara Davis is a part-time clinical instructor at Lewis and Clark Community College dental hygiene program and retired as a dental hygienist at SIU School of Dental Medicine after 25 years of service.

Dr. Brian Caraba

Dr. Caraba is a graduate of University of Illinois College of Dentistry and has been a general dentist in private practice since 1995. He has been involved with ISDS Auxillary training since 2007. Dr. Caraba is committed to excellence in Dentistry and continues to educate himself through many advanced courses including oral surgery, esthetic dentistry, prosthodontics, orthodontics, and implantology. He enjoys practicing dentistry and is enthusiastic with educating his staff, patients, and the dental community.

Dr. Marta Demski

Dr. Demski is a graduate of the University of Illinois at Chicago College of Dentistry. She is a general dentist currently practicing in her hometown of Park Ridge, IL. Dr. Demski is an active member of the American Dental Association, Illinois State Dental Society, Chicago Dental Society, Dental Arts Club, and Windy City Seminars branch of the Seattle Study Club. Dr. Demski has served as an instructor for the ISDS Expanded Duties Dental Course on Coronal Polishing and Application of Pit and Fissure Sealants since graduation.

Jennifer Bereckis, RDH

Ms. Jennifer Bereckis is the Clinical Instructor and Director of Clinical Operations at the University of Illinois College of Dentistry. She is responsible for yearly HIPAA, OSHA and Infection Control training for the entire College. In her faculty role, she is the Component Director for a Practice Management course taught in the DMD Curriculum. Ms. Bereckis serves on the University's Infection Control Committee, Needle Stick Committee and the University Senate. Ms. Bereckis is also a member of the Illinois State Dental Society Committee on Dental Education and a Consultant Board Examiner for the Commission on Dental Competency Assessments, formally known as North East Regional Board.

Local Anesthesia

Dr. William G. Flick

Dr. Flick has been on the part-time teaching faculty of the UIC College of Dentistry since 1993, and has held prior teaching appointments at Loyola University (1984-1993), Cook County Hospital (1980-1984), and with the U.S. Air Force (1977-1979). Dr. Flick has maintained an active private practice in Chicago since 1979. After receiving his BS and DDS degrees from the University of Illinois at Chicago, and completing a residency in Oral and Maxillofacial Surgery at Cook County Hospital, Dr. Flick earned a Master of Public Health (MPH) degree from the UIC School of Public Health.

Dr. Michael Miloro

Dr. Miloro received his DMD degree from Tufts University Dental School, and received his MD degree, General Surgery internship, and Oral and Maxillofacial Surgery certificate from the University of Pennsylvania. Dr. Miloro served on the Oral and Maxillofacial Surgery faculty of The Ohio State University, and was Program Director at the University of Maryland at Baltimore. He spent seven years at the University of Nebraska Medical Center as the Chief and Program Director of Oral and Maxillofacial Surgery. Dr. Miloro is a Diplomate of the American Board of Oral and Maxillofacial Surgery, and he serves on the Examination Committee of ABOMS. Dr. Miloro is a Fellow of the American College of Surgeons. He is currently head of Oral and Maxillofacial Surgery at University of Illinois Chicago College of Dentistry.

Dr. Thomas Skiba

Dr. Skiba earned a BSD and DDS from the University of Illinois at Chicago. Following military service with the US Army in Vietnam, he returned and completed a residency in Oral & Maxillofacial Surgery at UIC and earned a MS degree in OMS. He enjoyed private practice in Crystal Lake, Illinois and Lake Geneva, Wisconsin following residency for 32 years. Dr. Skiba joined the faculty of the UIC College of Dentistry in 2009. He teaches both undergraduates and OMS residents. He is course director of Dental Medicine and Dental Hygiene Pharmacology. He is also the Director of the Undergraduate Oral Surgery Clinic.

Auxiliary Course Instructors

Nitrous Oxide Monitoring and Administration

Dr. Evelina Kratunova

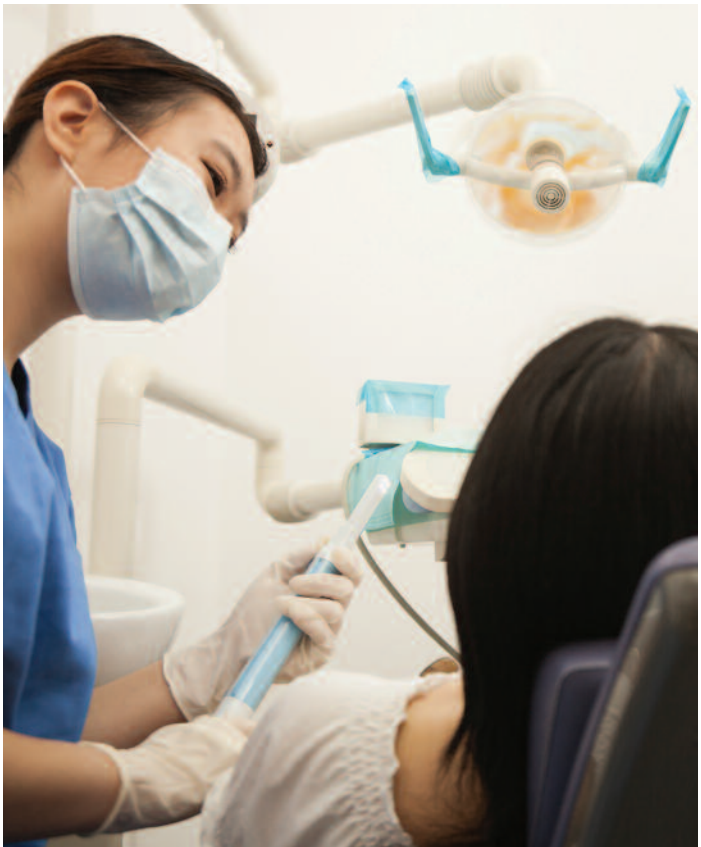
Dr. Eve Kratunova joined UIC in August 2015, she is a full-time faculty Clinical Assistant Professor in Pediatric Dentistry. Her responsibilities include providing direct patient care, supervising resident and dental student training and education, be involved in scholarly activity, performing basic and clinical research, collaborating with other Departments in the UIC.

Dr. Kratunova has a clinical doctorate in Pediatric Dentistry from Trinity College Dublin, Ireland, and a specialist fellowship degree in Pediatric Dentistry from the Faculty of Dentistry of the Royal College of Surgeons in Ireland.

Dr. Kratunova has also served as Secretary and President of the Irish Society for Dentistry for Children. She is an active member of the American Academy of Pediatric Dentistry and the ISDS.

Dr. William Goebel

Dr. Goebel is a Professor and former head of the section of Diagnostic Sciences, Southern Illinois University School of Dental Medicine. He holds staff positions at two hospitals and conducts a private practice in addition to teaching duties with responsibilities in the areas of Diagnosis, Medicine, Pharmacology, Therapeutics and Anxiolysis. He has published numerous articles in peer-reviewed journals, contributed chapters in several books and has been invited to lecture at meetings throughout the United States. He received his DDS and MSD degrees in Oral Diagnosis and Oral Medicine from Indiana University School of Dentistry.



Anesthesia/Sedation

Dr. William G. Flick
Dr. Michael Miloro
Dr. Evelina Kratunova

Dr. Kenneth G. Rawson

Dr. Rawson is a 2005 graduate of Southern Illinois University School of Dental Medicine and a member of the Madison District Dental Society. As a board-certified pediatric dentist, he serves as Section Head, Pediatric Dentistry, and Assistant Professor, Pediatric Dentistry, at Southern Illinois School of Dental Medicine.

Dr. Art J. Misischia

Dr. Misischia is Section Head and Clinical Associate Professor, Oral and Maxillofacial Surgery, at Southern Illinois School of Dental Medicine. He also serves as Adjunct Associate Professor, St. Louis University, Department of Endodontics/Periodontics. Dr. Misischia is a diplomate of both the American Board of Oral and Maxillofacial Surgeons and the National Dental Board of Anesthesiology.

Basic Intraoral Radiographic Techniques

Dr. Debra Dixon

Dr. Debra A. Dixon, Associate Professor, is Section Head of Diagnostic Sciences in the Department of Applied Dental Medicine at Southern Illinois School of Dental Medicine. Also, as Section Head of Radiology, she is in charge of all Radiology didactic classes and clinical instruction. Dr. Dixon received her DMD degree from SIU-SDM, and an MSc in Dental Radiology from the University of London.

SIU School of Dental Medicine – Located at 2800 College Avenue in Alton right off of Route 140. The Amtrak station is within one mile of the College for convenient transportation from other Amtrak communities. Free parking is available on Saturday in the Clinic Parking Lot. More information is sent with course confirmation.

UIC College of Dentistry – Located at 801 S. Paulina near Little Italy, Greektown, and the United Center, UIC is just a few miles from downtown Chicago, Union and Metra stations. The campus is easily reached via I-90 (Roosevelt-Taylor) or I-290 and I-55 (Damen/Ashland). An hourly rate public parking ramp is located at Paulina and Taylor Streets. Blue Line rapid transit service (Douglas-Cermak Extension) is available weekdays and weekends between the Medical Center Station at Polk and Paulina Streets and O'Hare Airport.
