MANUAL OF THE HOUSE OF DELEGATES
ILLINOIS STATE DENTAL SOCIETY
(Revised October 2018)

SECTION 1
INTRODUCTION

The House of Delegates, as the legislative and governing body, is the supreme authority in the Illinois State Dental Society. As such, it speaks for the members of the Society and for the dental profession in the State of Illinois. This material has been prepared so that all who participate in the annual sessions of the House of Delegates may have a better understanding of the methods and rules under which it operates.

Since the House of Delegates meets only once a year in regular session, many important problems must be considered and decisions taken at that time. The variety and complexity of the issues which are placed before the House make it impossible to handle them without having a well established routine for the conduct of business. This routine demands the close cooperation of all participants if the House is to function effectively in the difficult process of making decisions which lead to the establishment of policy for the Illinois State Dental Society.

SECTION 2
COMPOSITION OF THE HOUSE OF DELEGATES

The House is composed of the Speaker of the House of Delegates, the Vice Speaker of the House of Delegates and the delegates elected by the component societies and branch societies of the Illinois State Dental Society. Membership of the House of Delegates may vary from year to year and is determined by a formula contained in the Bylaws. Delegates are allocated to components based upon the total membership of each component and further based upon multiples of the number "75". The first delegate is awarded to a component for a membership of 1 to 75 members; the second delegate awarded for a membership of 76 - 150; the third for a membership of 151 - 225, and so forth. The dean and one student from each of the dental schools in Illinois and two dental hygiene members of the Society shall also be delegates. Delegates are chosen based upon the number of active, life and retired members in a component, and the official count used is the final count determined by the American Dental Association at the end of the calendar year.

The delegates are the official representatives of their component society in the House of Delegates. They have the duty of not only considering the wishes and interests of their component society and geographical regions but also the welfare of the public, the Society and the dental profession as a whole.

SECTION 3
GENERAL INFORMATION FOR DELEGATES AND ALTERNATES

Official credentials are mailed in advance of the annual session to all officially certified delegates and alternates. If a delegate cannot attend a meeting of the House, he/she should so inform the Chairman of his/her delegation, or if there is none, the Trustee of his/her district shall inform the appropriate alternate and the Secretary of the House of the change.
Before the annual session, the Secretary of the House will send each delegate and alternate the materials for the House of Delegates. Included in these materials will be information concerning the current annual session of the House, a schedule of meetings, a composition and schedule of reference committees, a preliminary agenda for reference committees, a manual of the House, and any reports and resolutions received to that date. Additional resolutions received after distribution of this delegate material will be sent to delegates up to 30 days prior to the start of the House of Delegates. Each delegate and alternate should become thoroughly familiar with this material.

A final agenda for the reference committees will be prepared subject to additional resolutions received or introduced at the first meeting of the House. The Bylaws provide that all new business must be introduced by the first meeting of the House, except when a resolution is approved for submission during the business meeting with no more than 5 dissenting votes. A majority of the elected delegates of the House constitutes a quorum.

SECTION 4
FLOOR OF THE HOUSE OF DELEGATES

The Secretary determines the seating on the floor of the House of Delegates, providing for an equitable annual rotation of the delegations. Each component and branch is designated an area where the delegation is to be seated.

Anyone may attend meetings of the House upon display of an Annual Session badge, but visitors are not permitted access to the floor of the House and must be seated in the section reserved for visitors. Alternate delegates are also seated in the visitors’ area.

Alternate delegates have the privilege of the floor of the House only when substituting for a delegate. The Board of Trustees, the Editor, the ADA Trustee, Past ADA Trustees, and Past Presidents of the Society have the privilege of the floor of the House. Committee chairs also have the privilege of the floor of the House to participate in the debates on their respective subject areas, if requested, but are without voting privileges unless they are duly elected delegates or alternate delegates substituting for a delegate.

When a downstate delegate from a component is not present and no alternate delegate is present from that component, the trustee representing the district which contains that component may fill the vacancy with any alternate delegate present from that district. If no alternate delegate is present from that delegate’s downstate district, the highest ranking ISDS officer present from the downstate districts may fill the vacancy with an alternate delegate from any downstate district.

When a delegate from the Chicago district is not present on the House floor and there is no alternate delegate available from the same CDS branch, if there is an ISDS trustee from the affected branch, that trustee may fill the vacancy with an alternate delegate from any branch of the Chicago Dental Society. If there is no trustee from the affected branch, then the highest ranking CDS officer may fill the vacancy with an alternate delegate from any branch.
SECTION 5
MEETINGS OF THE HOUSE OF DELEGATES

Each annual session is composed of three meetings of the House. These meetings are scheduled as follows:

Opening Meeting of the House: The opening meeting is held on the first day of the annual meeting of the Society. The date, time and location of the opening meeting is included in the delegate materials under the schedule of House meetings.

This meeting is devoted to matters relating to organization of the House, nominations for various offices, the President's address, the ADA Trustee's report, receiving visitors and presentation of additional resolutions. It is at this meeting that all remaining new business, including possible amendments to the Bylaws must be introduced. The final agenda for the reference committees is prepared and the location and hearing hours of the individual reference committees announced.

Subsequent Meetings of the House: The date, time and location of reference committee hearings and the business meeting are in the schedule of House meetings or will be announced in the House by the Speaker of the House.

These meetings are devoted to reference committee hearings, deliberation and action upon reference committee reports, the election of officers of the Society, and the installation of officers of the Society, all in accordance with the Manual of the House or the Bylaws.

SECTION 6
OPERATION OF THE HOUSE OF DELEGATES

The House of Delegates has 3 officers; the Speaker, the Vice-Speaker, and the Secretary. The Speaker is the presiding officer of the House and presides at all meetings. In the absence of the Speaker, the Vice-Speaker presides or at other times at the discretion of the Speaker. The Executive Director of the Society is the Secretary of the House and serves as recording officer and custodian of the records.

Proceedings of the business meeting of the House are recorded on a stenographic record which is used by the Secretary in preparing the official transactions of the House. Each delegate, when addressing the House on any matter, should identify oneself by name and component, and speak directly into the microphone to assure accurate recording of all remarks.

A Minutes Committee, comprising the Speaker and two delegates from the Chicago District and two from the rest of the state that were present, appointed by the Speaker, will be authorized to review and approve the minutes within 30 days of the official transcript being received by the Secretary. The delegation will be notified that the approved minutes are available on the ISDS website.

Recommendations which involve Society policy come to the House from several different sources: the President of the Society, the Board of Trustees, component societies of the Society, the delegates to the House, individual members, and, occasionally, from other sources. In these various ways, the House receives many recommendations for consideration each year, and its task is to act on them in the best way to meet the changing needs of the Society and the profession.
All the reports to be considered by the House are either sent to the delegates and alternates prior to the annual meeting or are distributed before consideration by the House. A thorough advance study of the various reports and resolutions will provide an essential background for a full understanding of the activities as they occur in the House.

Delegates and alternates must bring their copy of the delegate material to all meetings of the House since no additional copies will be available at that time.

The Manual of the House is the internal policy of the House of Delegates on how it conducts its business. Since the House does not reaffirm existing policy, the Manual is a permanent document of this Society. If an amendment to the Manual is offered, it will be accepted and considered in the same manner as all other resolutions. The resolution will be referred to a reference committee where it will be debated and considered before the House is asked to take action. The resolution will be reported to the House as a priority item at the beginning of the Business Meeting of the House. The Manual may be amended by a majority affirmative vote (in compliance with Chapter II, Section 12 of the Bylaws of the Illinois State Dental Society) of the delegates present and voting. If the House adopts the resolution, the amendment will govern the balance of that session as well as future sessions provided such amendment is not in conflict with the Bylaws.

ORDER OF BUSINESS: The order of business shall be:
- Call to Order
- Credentials Committee Report
- Approval of Minutes
- President's Report
- ADA Trustee's Report
- Introduction of New Resolutions
- Nominations
- Elections
- Installation of Officers and Trustees
- Reports of Reference Committees
- Unfinished Business
- New Business
- Announcements

The Speaker of the House of Delegates is authorized to re-arrange the order of the agenda as deemed necessary in order to expedite the business of the House of Delegates. The Speaker of the House will have full discretion to approve or disapprove additional requests for presentations during the ISDS House of Delegates.

SEATING OF DELEGATIONS: The Secretary shall arrange for the seating of delegations in the House of Delegates in an orderly rotation.

RULES OF ORDER: The rules contained in the current edition of the American Institute of Parliamentarians Standard Code of Parliamentary Procedure govern the deliberations of the House in all cases in which they are applicable and not in conflict with the Manual or the Bylaws.

The Speaker of the House shall preside at all meetings of the House of Delegates in accordance with Chapter II, Section 9D. The decision of the Speaker shall be final unless an appeal from such decision shall be made by a member of the House, in which case final decision shall be by majority vote.
In accordance with The Standard Code, a motion to suspend rules is an incidental motion that permits the House of Delegates to vote to suspend procedural rules that interfere with the accomplishment of a particular action. Rules may be suspended only for a specific purpose and for the limited time necessary to accomplish the proposed action. A two-thirds affirmative vote of the delegates present and voting is required to adopt a motion to suspend the rules.

ITEMS OF BUSINESS: An item of business becomes the property of the House and subject to House action in accordance with the appropriate order of business and agenda schedule when such item is received in writing by the Secretary of the House.

DELEGATE MATERIALS: All materials are sent to each delegate and alternate at least 30 days in advance of the opening of the annual session. All supplemental materials are distributed to each delegate before such items are considered by the House.

REFERRAL OF REPORTS AND RESOLUTIONS: Prior to each session of the House, the Speaker of the House shall prepare a list of recommended referrals to reference committees, such list to be available at the opening meeting of the House and subject to amendment or approval prior to the hearings of the reference committees.

RESOLUTIONS ON THE APPROPRIATIONS OF FUNDS: Any resolution proposing an appropriation of funds, except those relating to the annual budget, may not be acted upon without first being referred to the Treasurer and Finance & Planning chairman for cost determination and availability of funds.

CONSIDERATION OF BUDGET: The proposed annual budget shall be submitted to the House at least 30 days prior to the opening meeting of the annual session.

CAUCUSES: At the designated time and place, the delegation comprising the Chicago Dental Society shall meet in a Chicago District Caucus and delegations from the remainder of the state shall meet in a Downstate Caucus. Any ISDS member may attend their respective caucus. Each caucus may develop its own rules.

These caucuses shall meet to consider the business coming before the Business Meeting of the House of Delegates, and in the case of the Downstate Caucus, also meet to elect ADA delegates and alternates from the downstate region of the state. In the election of ADA delegates and alternates during the Downstate Caucus, the Caucus shall determine the manner of the election process except that cumulative voting shall not be permitted, i.e. each elector may cast only one vote for each open position.

VOTING AND DEBATE: Majority vote shall mean a majority of the votes cast and, except as provided otherwise in the Bylaws, any action receiving a majority vote shall be approved. Levying of assessments for specific purposes, regardless of duration, shall require a two-thirds (2/3) majority vote of the members present and voting.

BALLOT VOTE: According to The Standard Code, voting by ballot is the only method that allows members to express their decisions without revealing their opinions or preferences, i.e. a secret vote. On any matter before the House of Delegates, a delegate may make a motion that calls for the vote to be taken by ballot (secret vote). In order to decide if a ballot vote will be taken on the matter, at least one-third (1/3) of the voting delegates must vote in the affirmative on the motion for a ballot
vote. If the motion is adopted, the Speaker will announce that a ballot vote will be taken, and the
tellers will be asked to tabulate the vote.

NOMINATION PROCEDURES: Nominations for President-Elect, Vice-President, Treasurer,
Secretary, Speaker, and Vice-Speaker shall be made from the floor. Nominating speeches will be
limited to 3 minutes in length, and seconding speeches will be limited to 2 in number and one minute
in length each. In uncontested elections, there shall be one seconding speech limited to one minute
in length.

ELECTION PROCEDURES: Only delegates may participate in the election process. An alternate
delegate substituting for an elected delegate shall have the right to vote in an election if seated at the
time of the election process. A candidate receiving a majority of the votes cast for any office on any
ballot shall be considered elected. In the event no candidate receives a majority of the votes cast on
any ballot, the candidate receiving the least number of votes shall be eliminated and an additional
ballot or ballots shall be held until one candidate receives a majority of the votes cast for that office.
Once the votes have been tabulated, the chairman of the tellers will present the winner to the
Speaker, and the Speaker will announce the winner of the election. When there is only one
candidate for an elective office, that candidate shall be declared to be elected without the
requirement of taking a ballot vote.

Each district entitled to elect a trustee shall assemble and conduct said election prior to the business
meeting of the House of Delegates. The results of that election will be announced to the House at the
designated time.

INTRODUCTION OF NEW BUSINESS: No new business shall be introduced during or after the
opening meeting of a session of the House of Delegates if there are more than five votes against
submission for consideration. Reference committee recommendations shall not be deemed new
business.

PRESENTATION OF RESOLUTIONS AND OTHER ITEMS OF BUSINESS: Within the
limitation of the rule on the presentation of new business at the opening meeting of the House, any
delegate may present amendments and substitute resolutions, as well as procedural and other
matters, from the floor. Such amendments or substitute resolutions may be presented in advance to
the Secretary of the House to facilitate making copies available to the members of the House.
Resolutions which merely reaffirm or restate existing Society policy shall not be introduced in the
House of Delegates.

SECON丁ING OF MOTIONS: Following the proper movement of a motion, a second is not
required.

ACTION ON MOTIONS RECOMMENDED BY REFERENCE COMMITTEES: A reference
committee request for action on an item of business (resolution) shall be brought to the floor of the
House for debate in the form of a main motion. The main motion may be to adopt, refer, or any
other action that precisely reflects the recommendation of the reference committee on that
particular resolution.

Following the presentation of a main motion by the chairman of the reference committee, the
motion is subject to all specified rules which govern main motions as outlined in the current edition
After any main motion regarding a resolution is presented, debate is opened and any subsidiary
motion, including motions to amend (or substitute), may be applied to it in order of precedence as outlined in The Standard Code.

To avoid confusion, it must be emphasized that motions usually considered to be subsidiary may be, and are in fact, main motions when presented by reference committee chairmen in cases such as those outlined in the previous paragraphs.

If a main motion to adopt a resolution passes or fails, the vote of the House disposes of the resolution.

If a main motion other than to adopt is presented and it passes, the resolution is disposed of in the manner presented.

If a main motion other than to adopt is presented and it fails, a motion to adopt the resolution is then in order and is usually made by a delegate who favors adoption of the resolution. This resolution is now before the House for debate, amendment and action.

Secondary Amendments: A secondary amendment is not permitted in the House of Delegates. The amendment must be voted upon and, if approved, it can then be amended.

The motion to amend by substitution is open to debate at all times while it is pending; and such debate may go fully into the merits of both the original text and the substitute, since this is necessary to determine the desirability of the motion to amend by substitution.

Motion to Vote Immediately (Call the Question): A motion to vote immediately on all pending motions shall not be used in the House of Delegates. The motion to vote immediately may be used so long as it applies only to the immediately pending motion.

Motion to Table (Dispose without Direct Vote): A motion to table (dispose without a direct vote) shall not be used in the House of Delegates since it stops debate and could force the delegates to vote without full information.

Motion to Recommit or Refer to an Agency: When the House of Delegates wishes to recommit or refer a pending resolution to a committee or the Board of Trustees to study and report at the next annual session, the motion to be used to accomplish this purpose is the motion to refer to a committee or the Board. A motion to postpone definitely to the next annual session should not be used since it is not permissible to postpone a question beyond the next regular meeting of the same session or the end of the convention unless the House were to meet quarterly.

SECTION 7
REFERENCE COMMITTEES OF THE HOUSE OF DELEGATES

REFERENCE COMMITTEES: The reference committees of the House of Delegates consist of at least 5 delegates of the House appointed by the President of the Society as provided in the Bylaws. Two reference committees shall be appointed each year. Special reference committees may be appointed on a year to year basis. The scope of the committees will vary somewhat from year to year on the basis of the assignments that are made to them by the House.

DUTIES: The primary duty of a reference committee is to recommend to the House an appropriate course of action on matters which have been placed before it. This duty can best be discharged by
evaluating all resolutions which it has received from the committees, the Board of Trustees, component societies, and members, by basing its recommendations on the best information and advice which is available and by making its decision in the best interests of the public, the Society, and the dental profession.

It is not the duty of the reference committee to attempt to prevent the House from taking action on any motion which has been presented. Nor is it the committee's duty to accept automatically and without deliberation the opinions of its own members or, on the other hand, the opinions of those who have testified.

The reference committee fulfills its duty when it takes into consideration all of these factors and advises the House to adopt, amend, refer, or recommend defeat of a resolution which has been placed before it.

The reference committee has the final duty of taking action on all matters assigned to it. A reference committee may not "pigeon-hole" any item but must refer it to the House for final disposition.

AUTHORITY: A reference committee has a good deal of authority but must act within the Manual of the House and within the framework of the Constitution and Bylaws. The reference committee may not only act on resolutions before it but may also propose resolutions on its own initiative. It may call upon the officers, members of the Board of Trustees, and committees and the members of the staff when it desires to gain information. It may make an explanation of the committee's decision before recommending to the House that a resolution be adopted, referred, amended, replaced by a substitute resolution, or defeated.

REFERRAL OF ITEMS OF BUSINESS TO REFERENCE COMMITTEES: The reference committee receives items of business for consideration by referral from the House. The Speaker, in consultation with the Secretary of the House, prepares a preliminary list of referrals prior to the opening meeting of the House. This preliminary list of referrals, together with other items of business referred to a reference committee at the opening meeting of the House, constitutes the final agenda for the meeting of the reference committee.

STAFF ASSISTANCE: Each reference committee will be provided with one or more staff from the headquarters office. Each staff member has been given instructions to be of the greatest possible assistance to the committee. Staff persons are instructed not to keep verbatim minutes since there is insufficient time to transcribe them. Staff is instructed to prepare the report in accordance with a standard form, and the reference committee should not urge new styles and formats for the report. Staff members are also instructed to hold all committee deliberations and decisions in strictest confidence. The staff is instructed to prepare the report based upon the material dictated by the reference committee.

CONDUCT OF HEARINGS: The primary duty of a reference committee is to receive and evaluate opinions so that it may present a well-informed recommendation to the House. Opinions are received during the open hearing which is conducted by the reference committee and later evaluated in an executive meeting at which the committee's decisions are made.

The chair of the reference committee should preside at both the hearing and the executive meeting. The chair should carry out the usual duties of a chairperson in maintaining order, facilitating the transaction of business and in ruling on length and pertinency of discussion.
The chair should not permit the making of motions or the taking of formal votes at an open hearing since the objective of the hearing is to receive information and opinions and not to make decisions of any sort which would bind the committee in its subsequent deliberations. The chair should insure that all who want to be heard are heard but should be watchful against prolonged holding of the floor by one or more persons at the expense of others who may wish to counsel with the committee. The chair, with the consent of the committee, may place reasonable limitations on discussion and debate.

All members of the Illinois State Dental Society have the right to attend reference committee hearings and participate in the discussion, whether or not they are members of the House of Delegates. Non-members of the Society may participate in the discussion at hearings only with the approval of the chair. Non-members wishing to speak at a hearing must identify themselves and request permission to speak prior to making any statements. At the start of the hearing the chair should request that all non-members present identify themselves.

Reference committees are expected to be available at the announced starting time of the hearing and remain until all testimony has been heard.

CONDUCT OF EXECUTIVE MEETING: After evidence and information have been received at the open hearing, the committee may retire to an executive meeting at which only the members and the committee staff may be present. At this meeting, the committee reaches its decisions and prepares its report. The committee may request additional information from the Board of Trustees, other committees, staff, or other outside agencies to assist the committee in reaching its conclusions.

AMENDMENTS TO BYLAWS: A reference committee may be asked to consider an amendment to the Bylaws. The determination of whether or not the policy involved in the proposed amendment is desirable must be made by the reference committee which received the referral. The wording of all proposed amendments, however, must have the approval of the Speaker of the House.

A draft of the amendment should be submitted and, when the language of the amendment is approved by the Speaker and the President, the reference committee will then incorporate the approved text of the amendment in its report, indicating that the approval of the Speaker and the President has been received.

The purpose of this procedure is to give the individual reference committees the opportunity of determining whether the policy of an amendment is desirable, while reserving the technical working of the amendment to another authority.

PREPARATION OF REPORT: The report of the reference committee to the House is nothing more than the comment and the recommendation of the committee on the material which it has had under consideration.

All recommendations to the House must be placed in the standard resolution form. The use of preliminary and explanatory "whereas" clauses is not permitted. The committee should place this prefatory material in its comment on the resolution in the general text of the report.
Resolutions should be worded with the utmost clarity and must contain only a single topic. Resolutions containing more than one topic must be divided so that the House can vote intelligently on a single question. The wording of a resolution is most important since an improperly worded resolution will not give the delegates a clear and immediate idea of the question on which they are being asked to vote.

If the report of a committee contains no resolution, the reference committee should merely state that it has noted the report and make such comment as it may desire. It is not proper to recommend that the report be "received", "approved" or "adopted". If the reference committee wishes to adopt or approve some item in the report, it must draft a suitable resolution.

The report should be as brief as possible. Long sections of material which the delegates already have before them should not be repeated.

MAJORITY AND MINORITY REPORTS: Every effort should be made by the members of a reference committee to reach unanimous agreement. If this is not possible, majority and minority reports may be presented. The report receiving the most support from members of the committee is presented as the "committee report".

COPIES OF REPORTS: Reference committee reports will be made available for each delegate at a time to be announced prior to the start of the business meeting.

PRESENTATION OF REPORTS TO THE HOUSE: The reports of the reference committees are presented by their chair. The order in which the reports will be called is determined by the Speaker. The Secretary of the House will attempt to advise the reference committee chairs of the order and time when they will be called.

Reports are presented from the front of the House. They should be read slowly and clearly, directly into the microphone. The House will act on the report section by section, and the Speaker will indicate when the chairman is to continue with the next section of the report. Page numbers and other citations should not be read since all members of the House will have copies of the reports before them.

In the event of debate or discussion, the chair and members of the reference committee are free to reply to any questions or to comment. If the chairman desires, he/she may call on a member of a committee, Board of Trustees, or staff to supply the information requested. The chair of the committee, however, should be prepared to comment on the position which the committee has taken.

For the Chicago Dental Society, delegates shall be calculated based upon the membership of
each branch organization according to the above methodology. The Chicago Dental
Society will determine the distribution of these delegates. Notwithstanding the foregoing
calculations, should any component’s representation exceed sixty-five percent (65%) of
all components’ delegates, then the affected component’s delegates shall be decreased
to that percentage.

In addition, the Dean and one (1) student from each of the dental schools that
has received its “Initial Accreditation” or maintains “Approval Accreditation Status” from

If no alternate delegate is present from that delegate’s downstate district, the highest ranking ISDS officer present from the downstate districts may fill the vacancy with an alternate delegate from any downstate district.

When a delegate from the Chicago district is not present, and no alternate delegate is present from that delegate’s branch, the ISDS trustee from that branch may fill the vacancy with an alternate delegate present from the Chicago district. If there is no ISDS trustee from the affected branch, then the highest ranking Chicago Dental Society officer present may fill the vacancy with an alternate delegate from the Chicago district.

D. The Board of Trustees shall elect one alternate delegate from the Society’s dental hygienist membership to serve in place of a dental hygienist delegate who is unable to serve. B. Special meetings of the House may be called by the President of the Society upon a three-fourths (3/4) affirmative vote of the Board or upon the written request of at least one-third (1/3) of the elected delegates. Special meetings shall be held no more than forty-five (45) days from the official call of the meeting, and the business of the meeting shall be limited to the purpose specified in the official call unless the agenda is amended by unanimous consent.
