

Sign up TODAY for New Grassroots Text Alert System: Phone2Action

Posted January 2019

Don't miss important action alerts during the spring legislative session through the Society's new text alert system—Phone2Action! Session begins later this month, so the time is now. **Phone2Action** provides you with a quick, easy way to contact your legislator on issues before the General Assembly—right from your cell phone or tablet. **Text Toothparty to 52886 and follow the directions. For step-by-step instructions** with visuals, visit the [Advocacy](#) page on our website. When ISDS sends an alert, you will receive a text message asking you to take action. Remember, your action strengthens dentistry's position and advocacy efforts with legislators and policymakers. Questions? Contact [Pam Cuffle](#) in Government Relations.
